Insight 3

Q: The number 1 reason for flight Cancellations?

https://public.tableau.com/views/Flightbook3/ReasonsforFlightCancels?:language=en-US&publish=yes&:display_count=n&:origin=viz_share_link

The number one reason for cancelled flights is weather with 2,397 cancellations. Weather makes up 54.07% of all flight cancellations.

Design

In my Designs, I decided to keep color blind friendly colors. It allows for a wider audience to understand the chart. I also decided with my first two charts to use shade to help convey the message of least to most. With the dashboard, I choose the pie chart to show the share amount of each cancellation
